2-BANK, 20-AMP ON-BOARD BATTERY CHARGER Battery Maintainer + Battery Desulfator

ADD TO CART

Meet the all-new GENPRO10X2. Similar to our GEN2, only better. It's 19% smaller and

delivers 33% more power. It's one of the best performing onboard marine battery

chargers we have ever made. A two-bank onboard battery charger rated at 20-amps (10-amps per bank) for 12-volt batteries, including marine, boat, starter, and deepcycle batteries. Independently charge and control each battery bank with selectable charging modes - including 12V, 12V AGM, 12V Lithium, and 12V Repair Mode - for all types of lead-acid and lithium-ion batteries.

for 12-volt batteries, including marine, boat, starter, and deep-cycle batteries.

NOCO GENPRO 9enius 10X2

DOWN TO ZERO VOLTS. CHARGE DEAD BATTERIES.

The all-new start-voltage sensor allows the Genius GEN charger to detect and charge

dead batteries as low as 1-volt. For extremely dead batteries lower than 1-volt,

manually turn on force mode to detect and charge batteries all the way down to zero

volts.

THERMAL COMPENSATION.

MORE PRECISE CHARGING IN ANY

The new integrated thermal sensor automatically monitors and adjusts the

charging cycle based on fluctuations of ambient temperature, limiting the

chance of under-charging or over-charging, providing a more accurate and fully

charged battery. Avoids under-charging in cold weather down to -4F and avoids

CLIMATE.

over-charging in hot weather up to 104F.
